YOGA MAY SUHENDRA

Full-Stack Developer | Informatics Engineering Student Tangerang, Banten | 089630042313 | yogamaysuhendra26@gmail.com | www.linkedin.com/in/yoga-may-suhendra-8a4604301 | https://github.com/yogamaysuhendra

PROFESSIONAL SUMMARY

A dedicated 6th-semester Informatics Engineering student at Universitas Pamulang with a GPA of 3.33/4.00. Proven experience in developing real-world web-based tracking systems at PT Putra Tangerang Sejati using React.js and Node.js. Skilled in Artificial Intelligence development, specifically in training Convolutional Neural Networks (CNN) for computer vision projects. Demonstrated leadership as a Field Coordinator and Team Leader in community service and educational outreach programs.

TECHNICAL SKILLS

- Programming Languages: JavaScript (ES6+), Python, Java (Swing/NetBeans), SQL.
- Web Technologies: React.js, Node.js, Express.js, Tailwind CSS, HTML5, CSS3.
- AI & Data Science: Computer Vision, Convolutional Neural Networks (CNN), MediaPipe, Digital Image Processing.
- Database & Tools: MySQL, SQL Server, Git/GitHub, Android Studio.

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Contract/Project) | PT Putra Tangerang Sejati **January 2026 – March 2026**

- Designed and deployed a Web Tracking System to monitor real-time operational statuses.
- Developed a responsive user interface (UI) using React.js and Tailwind CSS.
- Built and integrated RESTful APIs using Node.js and managed database connectivity for seamless data flow.

PROJECT EXPERIENCE

Creator – Sign-to-Voice AI Recognition

- Developed a real-time sign language detection system using Python and MediaPipe.
- Trained Convolutional Neural Network (CNN) models to translate hand gestures into text and voice.

Lead Developer – Web Open Trip Platform

- Built a travel catalog platform utilizing React.js and Node.js.
- Implemented administrative dashboards for travel package management**.**

Java Developer – Management System Projects

- Developed desktop-based GUI applications for salary and rental management using Java and NetBeans IDE.
- Integrated MySQL databases for robust data handling and storage.

EDUCATION

Universitas Pamulang (UNPAM) | B.S. in Informatics Engineering2023 – Present (Expected Graduation: 2027)

- Cumulative GPA: 3.33 / 4.00.
- Relevant Coursework: Digital Image Processing, Artificial Intelligence, Database Systems, Data Structures.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

- **Field Coordinator – Campus Goes to School:** Managed operational flow and team coordination for educational outreach and social media challenges.
- **Team Leader & Treasurer – Community Service Program (PKM):** Led a team in creating school profile websites and conducting hardware/software workshops for students and staff.
- **Marketing Strategy Participant:** Developed innovative marketing strategies for a telecommunications business competition.
